

Tap-on-Phone Payment Solution.

No Terminal, No Paper, No Dongle!

PIN on Glass | PCI - CPOC Certified | EMV Certified

The Tap-On-Phone solution converts any NFC - enabled Android phone as a payment device. Merchants can accept all debit, credit cards & Mobile wallet payments on their phone without a dongle.

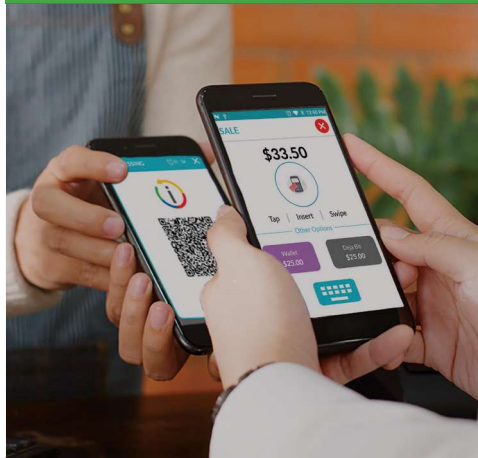

Have a contactless card?

Just tap and pay!

EMV cards offer high security and prevent chargeback risks and minimize interchange costs

Don't have a contactless card?

No problem.

Display QR code on Tap-on-Phone and let the consumers scan and pay from their own mobile

No card at all?

No Worries.

We accept advanced payment method too. Gen Z and millennials prefer mobile wallets and BNPL
